

Ocean Predict Strategy

Feedback Received

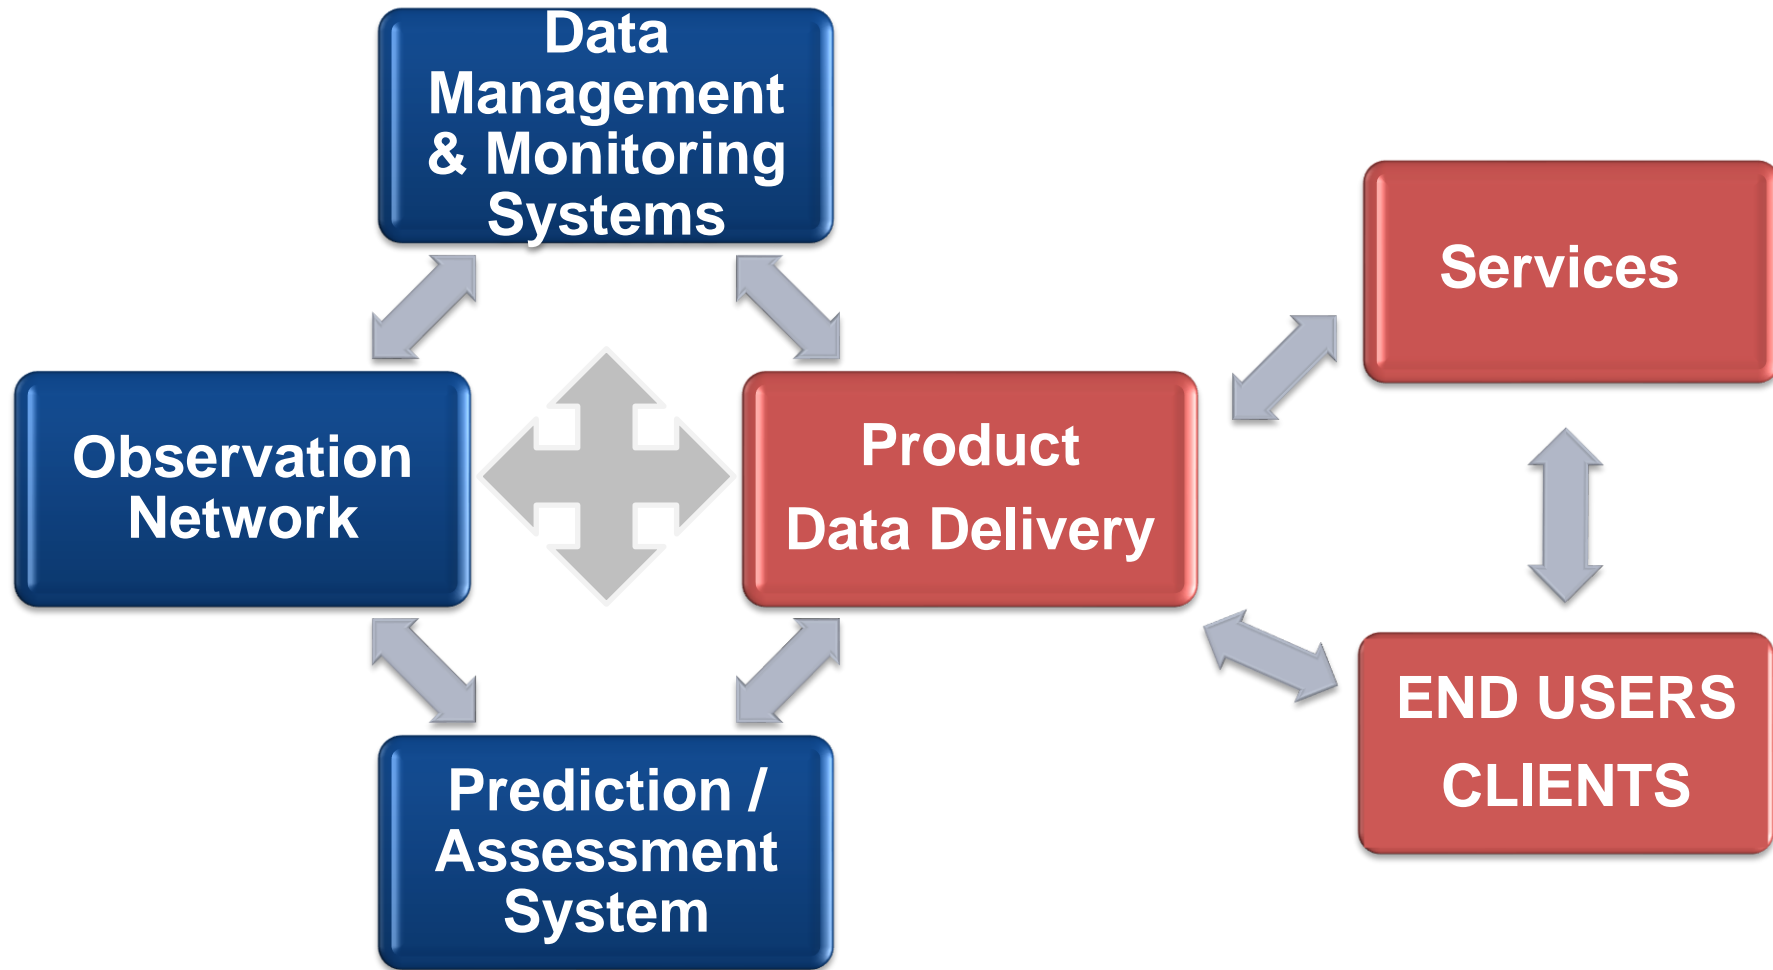

Comments Received since final draft

- Thank you for recent comments from Gary Brassington, Stefano Ciavata, Simona Masina & Giovanni Coppini , Yosuke Fuji, Patrick Heimbach, and Blair Greenan
- **Boost Inclusivity:** helping new groups engage in dev forecast systems
- Clarify OceanPredict / ForeSea . →
 - Clarify ETOOFS/OceanPredict?
- Add in strategy working towards **healthy and resilient ocean** where marine ecosystems are understood, protected, restored and managed
 - “ecosystem” appear 13 times in the Decade implementation plan, 0 in present strategy.
- repetition/duplication through the end of page 9 could be removed
more explicitly call out the climate community as partners (WCRP and its programs)
- Monitoring and assessments" should be much better developed and explained.
There are many currently under-explored opportunities.

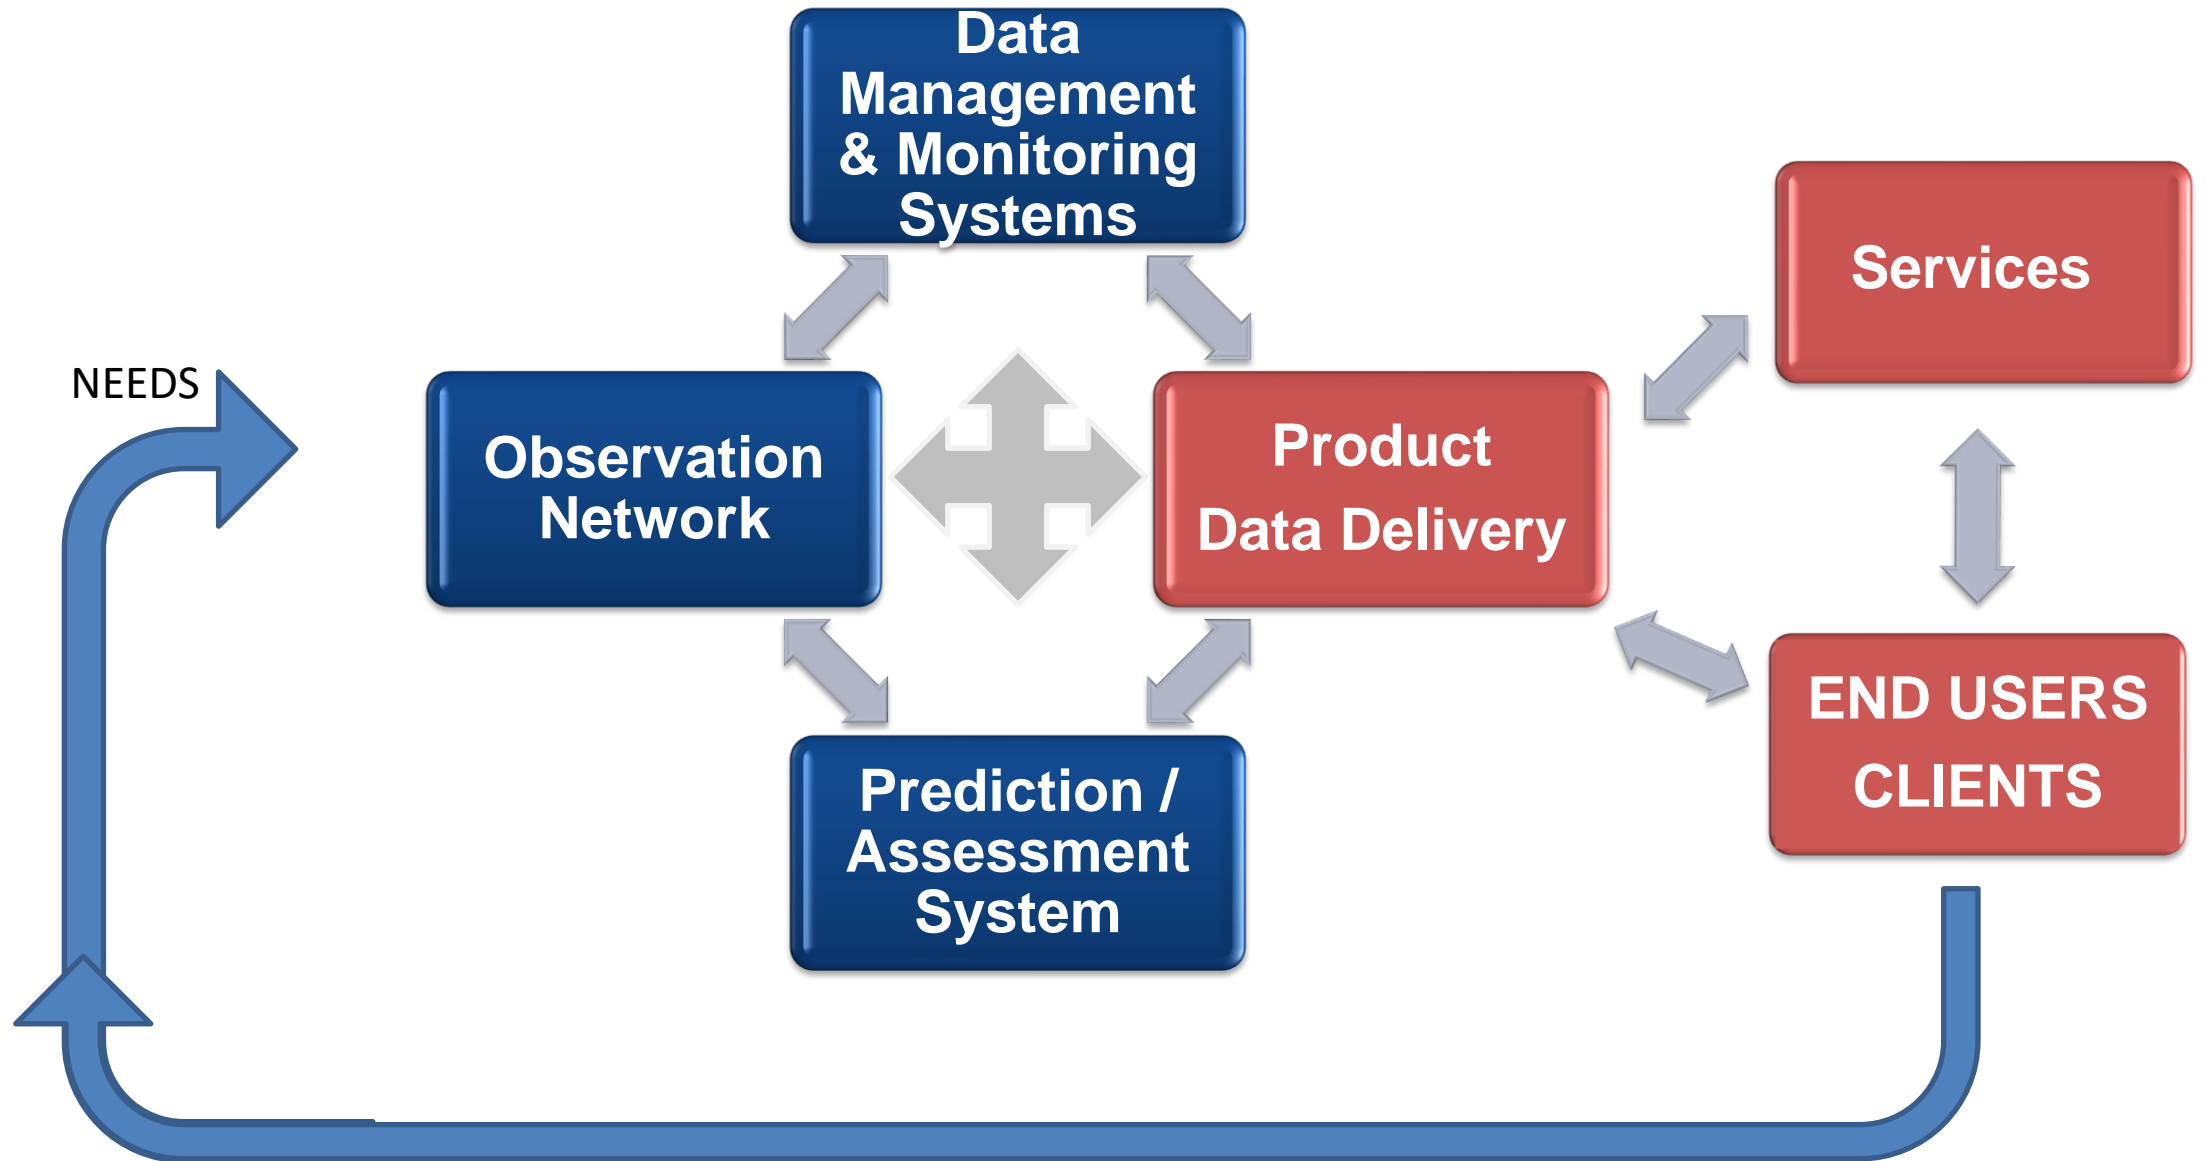

2 figures to finalize

- See options for figure 1
- See ideas that need to evolve in figure 2
